Your Financial Goal

It's time to get clear on how much money you need to make each month to live your DREAM life!

And let's not make this a guessing game.

Take some time to get clear on what your life "costs." Add it up so you can really see the money you will make actually means something to you!

Step 1) Add up ALL your known ANNUAL expenses using the spaces below (including your monthly bills plus any quarterly or annual bills)

Step 2) Add the specific purchases you/your family wants to make over the next 12 months

Step 3) Add taxes, insurance payments, health insurance, everything! Add an extra page or two if needed.

Step 4) Once you've totaled your annual amount, divide that total number by 12 to get your monthly number

Expense:	Annual Amount:
